PROFESSIONAL SUMMARY: -

Enthusiastic Java Full Stack Developer with practical training from Yess Infotech, Hadapsar. Strong foundation in Core Java, Advanced Java, Spring Boot, Hibernate, ReactJS, and MySQL. Experienced in developing responsive web applications and implementing secure backend logic. Good understanding of database design and RESTful APIs. Passionate about learning new technologies and contributing to real-world software projects.

Education

B.SC. (COMPUTER SCIENCE) Savitribai Phule Pune university, Maharashtra CGPA 7.69	2022-2025
Intermediate(12th) Maharashtra State Board of Secondary and Higher Secondary Education Percentage: - 66%	2022
High school(10th) Maharashtra State Board of Secondary and Higher Secondary Education, Percentage: - 78%	2020

SKILLS:

Programming Languages: Java, Core Java, JavaScript	Frontend: React.js, HTML5, CSS3
API Integration: REST APIs, JSON	Frameworks: Spring, Spring Boot, Hibernate, Bootstrap5
Databases: MySQL	
Version Control & Tools — GitHub, Eclipse, VS Code, Postman	

PROJECTS: -

Restaurant Management System – Frontend Project

Technologies: HTML, CSS, JavaScript

Developed a responsive restaurant website frontend using HTML, CSS and JavaScript to provide an interactive user experience. Implemented multiple sections including Home, Menu, About, Contact, and Feedback pages. Designed a dynamic menu display with item images, pricing, and add-to-cart functionality using JavaScript. Built user-friendly forms for placing orders and collecting customer feedback. Ensured clean UI design with consistent styling and smooth navigation across pages. Deployed the application on Netlify for public access and live demonstration. This project strengthened my understanding of frontend development, DOM manipulation, and UI design principles.

CRM (Customer Relationship Management) System

Technologies: Core Java, Spring Boot, Hibernate, React.js, MySQL

Developed a full-stack CRM application using Core Java, Spring Boot, Hibernate, React.js, and MySQL to manage customer data efficiently. Implemented secure backend services with Spring Boot and RESTful APIs for seamless communication between frontend and backend. Designed interactive and responsive user interfaces using React.js. Created and optimized MySQL database schemas for storing customer, lead, and interaction details. Integrated CRUD operations for managing customer records and follow-ups. Applied Hibernate ORM for efficient data persistence and transaction management. Focused on clean code structure, modular architecture, and scalability. This project enhanced my full-stack development and problem-solving skills.

Courses

Java Full Stack Development	06/2025 – 12/2025
Yess Infotech Completed comprehensive training covering Core Java, Advanced Java, Spring Boot, Hibernate, HTML, CSS, JavaScript, and MySQL . Gained hands-on experience in building full-stack web applications and understanding real-world software development practices.	Hadapsar, Pune
